BOYS AND THEIR TOYS: CAMCOPTER

Pere Rubio and his wife visited us in October 2013 and brought a camcopter along. Of course everyone was curious about the pictures that this little flying thing would bring us from a totally new perspective.

To see the island and the resort like the circling sea eagles do, we first let the camcopter take off on the main jetty of the resort...

Also the bay on the east side of Pulau Pef had to be discovered. Fascinated by the beauty of Pulau Pef, the camcopter decided on his last day to explore the marine world itself and descended.
Unfortunately it was his first and only dive... ;-)

BIZARR CREATURES OF RAJA AMPAT

© Andrew C. Podzorski

RAJA4DIVERS | ARMIN KELLER

Mother Nature shows over and over how creative she can be: Crabs, that don't want to shave anymore, others that look like a hydroid and those, that actually would prefer to be an Orang Utan or the one that simply lets grow a crown of softcorals on its head.

Keep your eyes
wide open and
you will find
different
ghostpipefish in
all kind of shapes
and colours.
Real masters of
camouflage!

And then there are hardly visible creatures in the waters of Raja Ampat that don't want to be discovered.
They see us, but we hardly see them!

With best regards from space!

CHEZ HARIYO

Our head chef Hariyo is originally from Yogyakarta, where he studied tourism and Japanese and was even teaching Japanese. In 2006 Hariyo packed his bag to study communication in Ottawa, where he then discovered his love for food and cooking. Without hesitation he made the decision to turn his passion into his profession and finished the „Diplôme de Cuisine“.

After seven years in Canada, Hariyo wanted to go back to his home country Indonesia. Looking for a new challenge he found his way to Pulau Pef through Facebook.

Even though we are in such a remote place without any supermarket around the corner, Hariyo and his team surprise us every day with delicious homemade creations.

The restaurant developed for our guests from all over the world to the heart of the resort.
In a familiar atmosphere the daily experiences are shared at the big table, whereby often interesting and entertaining conversations come up.
Caution: You will also meet in between when nibbling some cookies in the restaurant!

If you like to, you can also grab the wire whip and prove yourself in the Pef-kitchen with your own speciality! The kitchen team loves to give you a hand and they will put their heart and soul in it to get to know your recipe.

Fresh ingredients such as vegetables, fruits, spices and fish are used to prepare delicate dishes. Fishermen from the surrounding villages deliver fresh fish directly from the sea to our resort with their small boats and their wives provide local vegetables and fruits for us.

Besides the guests, also all the employees eat and meet in the restaurant and often surprise with music and dance or other small rehearsed „performances“.
We even have our own Jimi Hendrix ;-)!

Did you know?

Raja4Divers travels the world!

On our Facebook page you will find an album with pictures from our mascots' travel adventures.

And we are always happy to get some new pictures from it's experiences at different destinations: info@raja4divers.com
